# About Us

**“WE DON’T MANAGE, WE ENSURE SAFETY”**

**RS Engineering** is an innovation company dedicated and specialized in providing company solutions to all fire safety related issues. We are engaged in Training, Product support and designing activities. We have a history of delivering valuable services and support to the customers through engineering expertise, efficient operations and quality systems. We have demonstrated our ability to handle projects successfully in the domain of Manufacturing and other sectors. Flexibility to adapt to varying needs of the customers coupled with the extensive knowledge of the industry has ensured delivery consistently.

Over the years, RS Engineering has provided its Clients products which are Import Substitutes as well as customized products developed indigenously. The products have been certified for quality, functionality and acceptability by the Regulatory Authorities of the Indian Government.

We believe in investing in its infrastructure and newer technologies from time to time.

## FROM CMD’S DESK

We strive to achieve new milestones in the industry and understand customers' needs. We make sure we provide the customers with the correct solution by giving them highest quality, state of the art products and services- before and after sales thereby helping the nation becoming safe from Fire hazards.

# Mission & Vision

*"We Offer the Best Service in the Market".*

We commit to prevent and suppress destructive fires, investigate its causes; Enforce Fire Code and other related laws; respond to man-made and natural disasters and other emergencies. Growing engineering organization dedicated to excellence through quality, creating value for customers, employees through innovation technology and operational expertise. We are technology driven company at our core with an overriding commitment to quality and our primary measures of success are customers' satisfaction and shareholders value. It is our strategic vision to conduct business with highest standard of ethics as we always believe "Honesty and Integrity".

Customer satisfaction is the highest priority. The company will make every effort to deliver the highest quality products and services in business. The company will develop new strategies and plans based on customer driven philosophy for gaining competitive advantage, needed to meet the business objectives. Customers and employees input will be actively sought and strategically used for continuous improvement of quality and to fulfill ongoing customer needs. Strive to deal with our customers in an open and transparent manner. Continual

improvement of "Processes, products, services and people" will be the norm in our business.
